PROFESSIONAL SUMMARY

Results-driven Software Engineer with 2+ years of experience designing, developing, testing, and deploying cross-platform mobile applications using Flutter. Skilled in full application lifecycle development, including requirement analysis, UI/UX implementation, REST API integration, debugging, performance optimization, and production support. Experienced in troubleshooting application and system-level issues, configuring development environments, and collaborating with cross-functional teams to deliver scalable and production-ready solutions. Familiar with AI-assisted software development, prompt engineering fundamentals, AI productivity tools, and emerging AI technologies for improving development workflows. Strong interest in combining software engineering, AI-powered application development, technical coordination, and IT support to build innovative technology solutions.

CORE COMPETENCIES

- Flutter Cross-Platform Application Development (Android, iOS, Windows)
- Mobile Application Architecture & UI/UX Implementation
- REST API Integration & Backend Communication
- Application Debugging, Troubleshooting & Root Cause Analysis
- Software Development Life Cycle (SDLC)
- Requirement Analysis & Feature Planning
- Performance Optimization & Memory Management
- Git Version Control, Branching & Code Management
- Software Installation, Configuration & Environment Setup
- Android SDK, Flutter SDK & Development Environment Configuration
- API Testing & Integration (Postman)
- Production Deployment & Release Support
- Application Support & Issue Resolution
- Agile Development Practices & Team Collaboration
- Technical Documentation & Reporting
- AI-Assisted Software Development & AI Productivity Tools
- Prompt Engineering Fundamentals & Emerging AI Technologies

PROFESSIONAL EXPERIENCE

Flutter Developer (Android / iOS / Windows)

Hexalinks, Alappuzha, India | Aug 2023 – Present

- Developed and maintained 10+ production-ready Flutter applications, including publicly released applications available on the Google Play Store.
- Participated in the complete Software Development Life Cycle (SDLC), including requirement analysis, development, testing, deployment, and post-production support.
- Designed and implemented responsive, reusable UI components following modern UI/UX principles and cross-platform development standards.
- Developed scalable application structures and reusable code modules to improve maintainability, performance, and development efficiency.

- Integrated RESTful APIs, handled JSON-based data communication, and implemented backend connectivity for dynamic application features.
- Performed functional testing, UI testing, regression testing, and integration testing to ensure application quality and release stability.
- Used Postman for API validation, debugging, and testing application-backend communication across development environments.
- Identified, analyzed, and resolved application defects through debugging, log analysis, and root cause analysis to improve application reliability.
- Optimized application performance, memory usage, loading speed, and responsiveness across different devices and screen sizes.
- Configured and maintained development environments including Flutter SDK, Android SDK, Android Studio, emulators, build tools, and project dependencies.
- Resolved SDK, Gradle, dependency, and build configuration issues while supporting team members with technical troubleshooting.
- Collaborated with designers, backend developers, QA engineers, and stakeholders throughout development, testing, deployment, and production support phases.
- Managed source code using Git version control, including branching, merging, pull requests, and conflict resolution.
- Utilized AI-assisted development tools to improve coding efficiency, debugging workflows, technical research, and problem-solving during application development.

PROJECTS

Employee Management System

- Developed attendance, leave management, and employee tracking modules with REST API integration.

Healthcare Appointment Application

- Built patient booking, scheduling, notifications, and backend integration features.

E-Commerce Application

- Developed product catalog, cart, checkout, and order tracking while optimizing API performance.

Product Inventory System

- Built inventory management features with responsive UI and structured data flow.

LIVE APPLICATIONS

SKIPS INDIA – Android Application

Google Play Store: <https://play.google.com/store/search?q=skips+india&c=apps&hl=en>

- Developed and maintained a production-ready Flutter application for Android users.
- Implemented UI development, REST API integration, debugging, testing, and performance optimization.
- Managed application releases and supported post-deployment improvements.

NURSES SUCCESS MAGIC – Android Application

Google Play Store: <https://play.google.com/store/apps/details?id=com.bm.onlineexam&hl=en>

- Built cross-platform mobile features using Flutter with focus on usability and performance.
- Integrated backend services, handled API communication, and resolved production issues.

TECHNICAL SKILLS

Languages: Dart, SQL, C, C++

Frameworks: Flutter, Flutter SDK

Mobile SDKs: Android SDK, Cross-Platform Development

Backend: REST APIs, JSON, HTTP Communication

Databases: MySQL, SQLite

Tools: Android Studio, VS Code, Git, Postman, Gradle

Testing: Functional Testing, UI Testing, Regression Testing, Integration Testing, API Testing

Practices: SDLC, Agile Development, Debugging, Performance Optimization, Technical Documentation

SYSTEM & SUPPORT SKILLS

- Development Environment Setup & Configuration
- Application Troubleshooting & Debugging
- Software Installation & Maintenance
- System Issue Diagnosis & Root Cause Analysis
- Application Support & Production Issue Resolution
- Performance Monitoring & Optimization
- Version Control & Build Management
- Technical Support & User Assistance

SOFT SKILLS

- Cross-functional Team Collaboration
- Project Coordination & Task Management
- Requirement Analysis & Documentation
- Client & Stakeholder Communication
- Problem Solving & Critical Thinking
- Time Management & Task Prioritization
- Analytical Thinking & Decision Making
- Adaptability & Quick Learning
- Attention to Detail

EDUCATION

- Bachelor of Computer Applications (Currently Pursuing)
Indira Gandhi National Open University (IGNOU)
- Diploma in Computer Science and Engineering
Carmel Polytechnic College, Alappuzha, Kerala | August 2020
Certificate: Attested for UAE use
- Higher Secondary (Bio-Mathematics)
A. J. John Memorial Higher Secondary School, Kainady, Alappuzha, Kerala | June 2017

CERTIFICATIONS

- Flutter Application Development – Luminar Technolab, Kochi (Feb 2023 – Jul 2023)
- Software Developer (Java, Spring Tool Suite) – Trylogic Soft Solutions, Trivandrum (Feb 2021 – Apr 2022)
