

JUSTIN N THAMPI

Software Engineer | Web Developer | Application Developer

Abu Dhabi, UAE | Mobile: +971 523674311 | Email: justin.n.thampi@gmail.com

Portfolio: JustinNThampi.com | LinkedIn: [LinkedIn/Justin N Thampi](https://www.linkedin.com/in/JustinNThampi) | GitHub: [GitHub/Justin N Thampi](https://github.com/JustinNThampi)

Immediate Joining | UAE-based

PROFESSIONAL SUMMARY

Software Engineer with **3 years of experience** in designing, developing, testing, deploying, and supporting software applications across **web, backend, and cross-platform application development**. Experienced in **HTML, CSS, JavaScript, PHP, Laravel, REST APIs, MySQL, and Flutter/Dart**, with foundational knowledge of **Node.js and NestJS**. Skilled in **SDLC, requirement analysis, API integration, debugging, testing, database integration, performance optimization, and production support**. Strong ability to analyze existing systems, troubleshoot technical issues, and implement practical software solutions, with experience using **AI-assisted development tools** to improve coding, documentation, research, and problem-solving.

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, JavaScript, Responsive Web Development, Web Application Fundamentals
- **Backend Development:** PHP, Laravel, REST APIs, JSON, HTTP, MySQL, Node.js (Foundational), NestJS (Theoretical)
- **Application Development:** Flutter, Dart, Cross-Platform Development, Android, iOS, Windows
- **Databases:** MySQL, SQLite, SQL
- **Development Tools:** Android Studio, VS Code, Git, Postman, Gradle, Flutter SDK, Android SDK
- **Testing & Debugging:** Functional Testing, UI Testing, Regression Testing, Integration Testing, API Testing, Debugging, Root Cause Analysis
- **Practices:** SDLC, Agile Development, Performance Optimization, Technical Documentation, Requirement Analysis
- **AI & Emerging Technologies:** ChatGPT, Claude, Prompt Engineering, AI-Assisted Coding, AI-Assisted Documentation, AI Workflow Design, LLM Productivity Tools

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer

Hexalinks, Alappuzha, India | Aug 2023 – Present

Web Development

- Working knowledge of **HTML, CSS, and JavaScript**, with an understanding of web application structure and frontend development.
- Understanding of **responsive design, frontend-backend communication, APIs, web servers, and database-driven applications**.

Backend Development & APIs

- Worked with **PHP and Laravel** for backend connectivity and API-based application development.
- Integrated **RESTful APIs**, handled JSON-based communication, and worked with **MySQL** for application data.
- Used **Postman** for API testing, validation, debugging, and troubleshooting.
- Foundational knowledge of **Node.js, npm, REST APIs, middleware, and server-side JavaScript**, with theoretical knowledge of **NestJS** and Node.js backend architecture.

Application Development – Flutter & Dart

- Developed and maintained **cross-platform applications** using Flutter and Dart, including applications publicly released on the Google Play Store.
- Participated in the complete **Software Development Life Cycle (SDLC)**, including requirement analysis, development, testing, deployment, and post-production support.
- Analyzed requirements, workflows, and user feedback to implement features and software improvements.

Testing, Debugging & Performance

- Performed **functional, UI, regression, and integration testing**, along with debugging and root cause analysis.
- Resolved **SDK, Gradle, dependency, build, and performance issues** to improve application stability and responsiveness.

Development Environment & Tools

- Worked with **Flutter SDK, Android SDK, Android Studio, Git, build tools, and development environments**.
- Collaborated with designers, backend developers, QA engineers, clients, and stakeholders throughout development and support.
- Used **AI-assisted development tools** for coding, debugging, technical research, testing support, and problem-solving.

PROJECTS

Employee Management System: Developed attendance, leave management, and employee tracking modules with REST API integration.

Healthcare Appointment Application: Built patient booking, scheduling, notifications, and backend integration features.

E-Commerce Application: Developed product catalog, cart, checkout, and order tracking while optimizing API performance.

Product Inventory System: Built inventory management features with responsive UI and structured data flow.

LIVE PROJECTS

SKIPS INDIA – Android Application

Google Play Store: <https://play.google.com/store/search?q=skips+india&c=apps&hl=en>

NURSES SUCCESS MAGIC – Android Application

Google Play Store: <https://play.google.com/store/apps/details?id=com.bm.onlineexam&hl=en>

PERSONAL PORTFOLIO WEBSITE

Live Demo: <https://justinnthampi.github.io/Justin-Portfolio/>

EDUCATION

- Bachelor of Computer Applications (Currently Pursuing) | Indira Gandhi National Open University (IGNOU)
- Diploma in Computer Science and Engineering | Carmel Polytechnic College, Alappuzha, Kerala | August 2020 (Attested for UAE use)

CERTIFICATIONS

- Flutter Application Development – Luminar Technolab, Kochi (Feb 2023 – Jul 2023)
- Software Developer (Java, Spring Tool Suite) – Trylogic Soft Solutions, Trivandrum (Feb 2021 – Apr 2022)
